HELP THE WAR EFFORT BY PREVENTING FOREST FIRES

NO ONE is exempt from helping to win the war! EVERYONE, regardless of age, has his or her place in the overall effort! Some men, because of age are called upon to bear arms; man ships, submarines and planes; minister to the injured and maintain morale. Women, in large numbers, are serving with the armed forces as nurses and members of the several women's military organizations - WACS, WAVES, SPARS, etc. War industry has taken millions of men and women whose accomplishments have been the marvel of the world. Civilians at home are doubling up on their activities because of the shortage in manpower, purchasing bonds, assisting in numerous patriotic undertakings, maintaining home morale and, on the whole, carrying on with a cheerfulness and determination that is typically American. Yet, despite the time, thought and effort we are all putting into the war effort in general, we are, true to our peculiar American characteristics, heedless and careless about many important things and one of these is FIRE as it relates to our forests.

Much harm can be done the war effort because of our carelessness with fire. Lumber has gone to war in a BIG WAY! Our New Hampshire forests are contributing their full share insofar as manpower permits. Fire, the greatest enemy of the forests, destroys, during each of these critical years, hundreds of acres of valuable trees that could contribute to the war effort. Forest fires disrupt the war's business by taking men from their important work in industry and on the farm and reduces production of necessary war materials and food. Forest fires require the spending of much money and material that might otherwise be diverted into vital war channels. Forest fires are, for the most part, unnecessary and avoidable for ninety-eight percent of such fires are, annually, the result of human carelessness - yours and mine. This can and should be rem-

edied - NOW! YOU can HELP THE WAR EFFORT by PREVENTING FOREST FIRES! The rules of the game are simple.

1. Always be careful with fire in or near woodlands.

2. Comply with regulations governing the use of starting of fires there.

Remember—

a. You need written permission from your local forest fire warden for debris burning fires when the ground is not covered with snow.

b. Be sure your match, cigar, cigarette and pipe ashes are OUT before dropping them.

3. Be fire-minded NOW as never before; be careful; caution others to be careful; be cooperative and thus help your warden, your town, your nation and yourself!

HELP THE WAR EFFORT BY PREVENTING FOREST FIRES

The 1944 fire record for our town is: Number of fires, none; acreage burned, none; number of permits issued, four.

LEONARD O. MERRILL,

Forest Fire Warden.

Due to the closing of the books December 31, 1944, instead of January 31, 1945, as in the past, note that several items show no payment in 1944 but were paid in January 1945, and must be considered 1944 expendiures.

Through error $ 218.75 interest was paid by the Fire Department and should have been paid by the Sewer Department. A voucher has been made in 1945 to adjust this error.

Fire Alarm Calls 1944

46 chimney fires
7 box alarms in town
2 out of precinct fires
8 out of town chimney fires

COMMISSIONERS' REPORT

In accordance with Law passed by the 1943 Legislature, Fiscal Year of Cities, Towns and Municipalities (Except School Districts) close on December 31, instead of running from February 1st to the following January 31st.

As the Bonds of the District are payable on the 15th of January in each year, the bonds and interest paid on January 15, 1945 do not enter into this year's account but will appear in the 1945 account and each subsequent year.

We were obliged to curtail on Water during the Summer months during the extremely dry spell, but were more fortunate than many other towns and cities, but the supply in our Reservoirs were at a low point for about three months, but owing to cooperation of the water-takers we passed the crisis without serious trouble though we were unable at all times to keep the Pumps running for the usual time daily on account of available supply in the Well.

The Reservoirs have been thoroughly cleaned and the lot at the Reservoirs kept in condition required by the State Board of Health, who make regular inspections throughout the system and these have been more than in previous years.

Water Breaks have been more than usual and the principal ones are as follows:
Rogers Street:

Labor	$ 341.18
Materials	63.19
	$ 404.37

Main and Railroad Streets:		
Labor		209.15
Materials		30.64
N. H. Explosive Co., for cutting through cement highway		21.05
Total	$	281.89
Hawthorne Street:		
Labor		202.60
Materials		49.85
Total	$	252.45
Langdon Street:		
Labor		321.20

Early in the summer it was necessary to use the Deisel Pump for about 7 weeks while waiting for the W. P. B. Board to grant authorization to secure necessary parts for the Electric Pump and Motor.

The New Hampshire Explosive Company at Concord are available at times for drilling through the cement highways and we were able to secure them for the R. R-South Main Street job which made a sizable saving to the District for labor.

Since auditing an amount of $3,463.92 have been paid on Water Bills.

REPORT OF SCHOOL NURSE

To Plymouth School Board:

I herewith submit the report of school nursing from September 1943 to July 1944.

Children inspected	546
Symptoms of defects found:	
Dental	146
Tonsils	64
Vision	33
Underweight	19
Enlarged glands	22
Correction of defects reported:	
Dental	453
Tonsil operations	49
Vision	86

Dental clinics were held in the spring financed by Plymouth Red Cross at which 41 were treated. Four tonsil operations were paid for by the Community Chest and Legion Auxiliary.

Four eye cases were taken to Hanover Eye Clinic.

The Pemigewasset Woman's Club again helped with the milk fund.

21 children attended Chest Clinics, were examined by Dr. Little of Glencliff, skin-tested and chest X-rayed.

426 school calls, 215 home calls and 88 business calls were made in carrying out the Health Program of class-room inspection and talks, home calls and correction of defects.

At the beginning of the school year 1944 these symptoms of defects were found:

Children inspected	584
Dental defects	143

Tonsils	56
Vision	34
Enlarged glands	18
Underweight	11

411 children were tested for hearing with the audiometer and only one was found to have seriously defective hearing.

These corrections have been reported made to date:

Dental	132
Tonsils (since school closed last June)	24

Vision—new glasses 14; lenses changed.

Milk is available to the children in the Grade School and hot lunches are being served in the High School for pupils who commute.

The usual fine interest and co-operation of all interested in the health of the school children has been shown and appreciated.

Respectfully submitted,

ANNA M. LOVETT, R. N.,
School Nurse.

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Plymouth School Board:

This report, which is the second one submitted by me as your superintendent of schools, furnishes necessary statistical data and a discussion of those topics about which the people of Plymouth may desire further information.

The teacher situation remains critical. Even those who have no direct connection with schools are fully aware of the fact that man-power shortages are felt here as well as in other fields of employment. One may truthfully say that the effect is more pronounced in teaching because of the time required to prepare for teaching. If the war emergency were to end this year, we could not expect complete relief for at least another four years. The 1945-1946 Plymouth school budget is prepared with these facts in mind.

Because of contractural terms of operation of the New Grade School my testing program and report card system do not apply there. They do apply in the Sargent School. Tests of mental ability are given each year in grades one and four and standard achievement tests are given at least once a year in grades three through eight. The results of both tests are used to enable us to help pupils where help is most needed, and to keep each one working at capacity. It is a serious mistake to allow pupils to get into the habit of doing less than they are able to do. So long as a child does his best we are satisfied with the result whether the grade earned is high or low.

The new report cards show parents at a glance whether there is any change in accomplishment or effort. Each marking period adds a new line to the graphical picture of progress. This type of report has been found to encourage pupils to work better, to strive to better their own record rather than to engage in

unequal competition with others, and to be more mindful of good school citizenship. In my opinion the evaluation of citizenship qualities, found on page four, is the best forecast of later adult performance.

Our high school shop work has been carried on with satisfactory results but under many difficulties. Due to war conditions our machinery arrived so late that even now it is not set up ready for use. Consequently, the boys had to do hand work exclusively. That would not have been so bad if good lumber could have been bought instead of the inferior grades we had to use. Many of the boys brought their own material for the construction of various projects.

Benches have been made by the boys as a part of shop equipment. The quality of work they have done is exceptionally good when one considers that the tops are made from worn maple stair treads replaced last summer. Some of the boys have repaired and refinished pieces of furniture while others have built snow-scoops. It is our policy to have the classes themselves build as much of our equipment as possible.

Because only two shop classes per day could be provided, all boys who wanted such work were not allowed to take it. A total of 28 boys have been enrolled in the two divisions. There is enough demand for wood working to lead to the specific recommendation that a full time shop instructor be employed next year. The school budget makes that provision.

Application has been made at the Portsmouth Navy Yard for a milling machine, a shaper, an engine lathe, a drill press and essential tools for each. When these machines are alloted, our only expense will be the cost of transportation to Plymouth. As pointed out in my last report we hope to offer machine shop training eventually, hence the above mentioned steps to procure a part of necessary equipment.

Unquestionably our shop work is drawing more tuition pupils from nearby school districts. A year ago we had a total of 55 boys out of a non-resident enroll-

ment of 132 tuition pupils. This year we have 150 tuition pupils of whom 72 are boys. While the tuition list has increased a total of 18 pupils over last year, a gain of seventeen is noted in the number of boys. Another advantage of shop work is that we shall be able to hold in school longer a considerable number who might otherwise withdraw. At the current tuition rate of $93.87 the gain of 17 pupils produces $1,595.79 in tuition income to the school district.

Physical Education should be added to our school program when provision can be made for the purchase of equipment and the employment of an instructor trained for that specific field of work. That instructor would also serve as coach of the three major sports and thus insure desirable inter-scholastic competition. But more important than that, every member of the school, unless excused by a physician, would receive regular instruction in health and body building exercise. Through such a program we could develop intramural competition that would strengthen and feed our teams in inter-scholastic sports. The two ways in which a good physical education program differs from a strictly athletic team program are:

(a) Physical development becomes a year-round activity rather than one responsive to seasonal emphasis.

(b) The entire pupil body profit from regular instruction rather than having all attention centered in a comparatively few who are athletically inclined and skillful.

One of the major requests made of public schools at the beginning of the present war emergency was not for military training but to intensify existing programs of physical education or to introduce such programs.

The no-school signal for elementary schools is 2-2 sounded three times on the local fire alarm at 7:30 in the morning and means that grade schools will be closed for the entire day. Because of the wide area

from which high school pupils are drawn and our inability to notify them there will be no closing of the high school at any time because of stormy weather. It may be possible to arrange to have elementary no-school announcements broadcast from either Portsmouth or Laconia.

A telephone should be installed in the office of the Director of Training in the New Grade School. Parents who wish to contact either their children or the teachers are now unable to do so without much inconvenience. Furthermore, my time in my office is too limited to spare much of it delivering messages or calling people to the telephone even though it is my desire to meet such requests.

Your attention is directed to the reports of the School Nurse and the Headmaster for an account of activities not covered in my report.

The pleasant and friendly relations mentioned in my previous report have been continued this past year. For every courtesy and kindness shown me by parents, teachers and School Board my appreciation is hereby expressed.

Respectfully submitted,

ARTHUR S. ROLLINS,

Superintendent of Schools.

HEADMASTER'S REPORT

To the Superintendent of Schools:

I herewith submit my sixteenth annual report as Headmaster of Plymouth High School.

Class of 1944

First Honor	Sara M. Smith
Second Honor	Lucille R. Ford
Third Honor	Alice A. Downey

On Friday morning, June twenty-third at 10:00 o'clock, the graduation exercises were held in the New Auditorium. Superintendent Arthur S. Rollins, acting for the Plymouth School Board presented diplomas to twenty-one boys and thirty-two girls.

The other Commencement activities consisted of the Baccalaureate Sermon by the Rev. A. Otis Beach on Sunday, June eighteenth; Class Day on Wednesday, June twenty-first, and the Public Reception on Friday, June twenty-third.

New Teachers

Mr. Albert D. Jordan graduated from Bates College in 1933 and studied at the University of New Hampshire Summer School, 1944. He replaced Miss Margaret Rand.

Miss Barbara Barsantee, Bates 1942, took the place of Miss Louise Gilbert, a teacher of French and Spanish.

Miss Carolyn E. Gove, University of New Hampshire 1942 who studied at the University of Michigan Summer School last summer has taken charge of the music work in place of Miss Carol Ginnarakos.

New Credits

The general shop course was offered to freshmen last September and has had an enrollment of thirty boys. These boys have not only experienced making things of their own choice but have done much useful construction in preparing the work shop. Each one who satisfactorily completes this course will receive a credit of one unit.

Miss Gove has arranged her choral work so that each participant may receive one-fourth of a credit each year.

To the Parent or Guardian

To secure the best progress of the pupil, the school and the home must work together. As make-up work is not as valuable as that done in class, parents should not allow their children to lose school sessions, unless absolutely necessary. Going to school demands regularity and promptness; will you not help to teach your boy or girl that fact?

Report cards are sent to you every six weeks, please examine them carefully, sign them, and send them back promptly. If the report is not clear to you and you wish to talk with the Headmaster or teacher, please do not hesitate to come to see us.

There is not time in school hours to prepare all lessons, so it will be necessary for each boy or girl to spend one hour or more on his or her school work at home. You can help by seeing that he or she has a suitable place to do it as well as to encourage it.

Recommendation

That a physical education teacher be engaged to carry out a physical education program in connection with athletics. There is need of a carefully planned system that all members of the school may have an opportunity to achieve valuable results through participation in physical activities.

To the School Board, Mr. Rollins, the Citizens, Teachers, and Pupils, I extend my sincere thanks for the fine support and cooperation which I have received during the past year.

Respectfully submitted,

CHARLES E. MOORS,

Headmaster.
